

Static earthing kits

A multicored high-tensile steel cable with a medium duty diecast aluminium clamp. The cable has an orange Hytrel coating and is pre-terminated with an M10 compression ring terminal. The clamp has stainless steel contact teeth.

Cable length (max)	Weight	Part no.
3 metres	0.56kg	SK010

Static earth lead and plier clamp

Static earth lead and heavy duty clamp

A multicored high-tensile steel cable with a heavy duty passivated carbon steel clamp. The cable has an orange Hytrel coating and is pre-terminated with an M10 compression ring terminal. The clamp has twin tungsten carbide contact teeth.

Cable length (max)	Weight	Part no.
5 metres	1.09kg	SK020

Static discharge reel and plier clamp

A multicored galvanised steel cable with a medium duty diecast aluminium clamp. The cable is housed in a self-retracting cable drum with an instant lock mechanism. The clamp has stainless steel contact teeth.

Cable length (max)	Weight	Part no.
6.1 metres	4.0kg	SK030

Static discharge reel and heavy duty clamp

A multicored galvanised steel cable with a heavy duty passivated carbon steel clamp. The cable is housed in a self-retracting cable drum with an instant lock mechanism. The clamp has twin tungsten carbide contact teeth.

Cable length (max)	Weight	Part no.
15.2 metres	5.9kg	SK040
