

The CNS...-D line protection device is an overvoltage protection device/fine surge network protection device, Type 3 (Class D) to DIN EN 61643-11 for the protection of consumers from transient overvoltages.

The integrated protection circuit, consisting of gas dischargers and varistors is continuously monitored via a temperature controller. In the arrester fails, the fault is signalled both audibly and visually. The mains voltage is maintained, even if the protection circuit fails.

The protection devices are used as adapters in the versions with cold device connectors or multi-way connector strip for connecting several terminals.

Fine network protection/adapter with cold device connector

Arrester type 3

Type	Country-specific version	Colour	Pack.	Weight	Art. No.	Price
			pcs	kg/% pc		price/pc
CNS-D-D	D	light grey	1	30.000	5092 60 4	
CNS-D-GB	GB	light grey	1	30.000	5092 61 2	
CNS-D-F	F	light grey	1	30.000	5092 63 9	

Length of connection conductor: 1.5 m

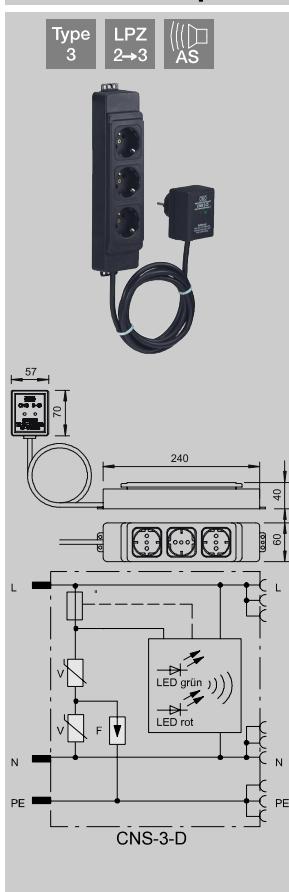

CNS-D: Surge protection device Type 3 (Class D) to VDE 0675 part 6-11 (DIN EN 61643-11), intended for use in protective contact plugs.

- VDE-tested
- With visual and acoustic signalling, function display
- With cold unit connector
- Length of connection conductor: 1.5 m
- Y-circuit for high electrical safety

Application: e.g. protection of PCs, printers, copiers, fax machines, etc.

Maximum continuous operating voltage	Uc	V	CNS-D-D	CNS-D-GB	CNS-D-F
Requirement class to VDE 0675 Part 6-11 (DIN EN 61643-11)	Type 3	Type 3	255	255	255
