

## Data Line Lightning Protection

The **MPS** Series are Multi-line Solid State Protectors which are ideal for more than 6 pair on 66 blocks. These protectors replace gas tubes and have many advantages. The MPS Series have three voltage ratings for 66 type punch down blocks, and lower differential voltage than 3 element gas tubes.

Part Number	Application	Typical	Turn-on Vdc	# of Wires
IS-MPT-17	E1 / T1		17	2
IS-MPT-24	RS232 Data		24	2
IS-MPT-75	Extension Lines	Extension lines	75	2
IS-MPT-200	Telco Trunk	Telco Trunks	200	2
